Summary Passionate Front-End Web Developer and Web Designer with an excellent eye for layout and composition and 2+ years of educational and personal experience handcoding HTML and CSS. Practical experience working with clients and presenting creative solutions under pressure and deadlines.

Skills Proficient with HTML5 and CSS3.
Basic knowledge of JavaScript, Bootstrap frameworks, WordPress. Some experience with PHP and MYSQL.
Well-versed with Adobe Creative Suite software such as Dreamweaver, Photoshop, Illustrator, InDesign, and Premiere Pro.
Practical experience in Graphic Design, Page Layout, Typography, Digital Illustration, Video Editing, Photography, and some Copy Writing and SEO.

Experience **2017**
Web Designer/SEO Specialist, Drifters Products, Richmond Utah
Redesigned the website for an online store using an existing WordPress theme to make it look more modern and professional and to better fit the business' needs. Optimized the site for Google so it would be easier to find on the web.

2015 - 2016
Paid Internship as Junior Designer and Web Developer, Bonefrog Creative Group, Lava Hot Springs Idaho
Coded websites from wireframe mockups and recoded older static websites to be responsive and mobile-ready. Created branding for clients including logos, business cards, and websites. Designed posters, brochures and other corporate product and event pieces.

Education Bridgerland Applied Technology College — 2016-2017 Web and Mobile Development
BYU-Idaho — 2015 Web Design and Development
College of Southern Idaho — 2013-2014 Technical Certificate in Digital Media
