**Summary** Passionate and motivated Front-End Web Developer with 3+ years of educational and professional experience handcoding HTML and CSS.

**Skills** **Proficient:** HTML5, CSS3  
**Working Knowledge:** Javascript, Git, Command line, Angular 6, Sass, Flexbox layout

## Experience **2018 - 2019**

*Junior Front-End Web Developer, Pope Tech, Logan Utah*

- Head front-end developer for a large multi-page social media application using HTML, CSS, and Angular 6.
- Collaborated with my team and met weekly goals.

## **2017 - 2017**

*Web Designer/SEO Specialist, Drifters Products, Richmond Utah*

- Redesigned the website for an online store using an existing WordPress theme to make it look more modern and professional and to better fit the business' needs.
- Optimized the site for Google so it would be easier to find on the web.

## **2015 - 2016**

*Paid Internship as Junior Designer and Web Developer, Bonefrog Creative Group, Lava Hot Springs Idaho*

- Coded websites from wireframe mockups and recoded older static websites to be responsive and mobile-ready.
- Created branding for clients including logos, business cards, and websites as well as posters, brochures and other corporate product and event pieces.

**Education** Bridgerland Technical College — 2016-2017 Certificate in Web & Mobile Development  
College of Southern Idaho — 2013-2014 Technical Certificate in Digital Media
